

Message from the Director

Dr Osanjo holds a PhD (UoN), MSc Entrepreneurship (JKUAT) and BA (Hons) UoN. As the Director of the School of The Arts and Design, I am looking forward to mobilize resources to realize the vision of maintaining the School as the reference point for quality research, consultancy and extension services in design, not only in Kenya but in the whole region and Africa as a whole. This will be achieved by enlisting the support and participation of students, staff, alumni, well wishers and stakeholders. Our recent orientation of design education towards sustainable lifestyles and sustainable environment will continue so that our curriculum does not only create innovators but creates innovators who are sensitive to the global challenges
